COMMENTS FROM THE TOWN MANAGER'S OFFICE

During October 1957 was spent on Town Welfare. Aid was furnished to four cases, two of which were supplementing board in addition to their pension, one was medical assistance, the fourth received food and clothing. This fourth case is the only real problem that we have at the present time. They are residing in Portland but have a Bethel settlement. It is anticipated at the present time that this case will be eligible for Aid to Dependent Children in three months, which would relieve this town of any expense for some time to come.

Aid was furnished in the amount of \$143.97 for two families with settlement in other towns.

Five state cases received aid amounting to \$140.33. Four cases were medical assistance and one was supplementing Old Age Assistance as well as some medical needs.

Notices were sent out last Friday to those persons not having paid their 1957 dog licenses. If the notice does not bring the desired results a visit by a constable is next in order. The law now allows the constable to charge a fee of \$2.00 in addition to the license if it becomes necessary for him to call on a dog owner.

Sometime ago an umbrella was left at the town office. It will be returned upon proper identification by the owner.

Sincerely,
Harold L. Bean

THE CHRISTMAS SEAL CAMPAIGN

Each year, as the Christmas season approaches, the National Tuberculosis Association carries on its annual Christmas Seal campaign. And it would be hard indeed to find a cause more worthy of public interest and support.

Great strides have been made in fighting tuberculosis—due in no small part to the work of the Association, and to the financial success past sales have achieved. But a great deal more remains to be done and must be done. The latest estimates indicate that 250,000 Americans have active TB, 100,000 of them unknown to health authorities. In addition, there are 1,750,000 people with inactive TB, and 550,000 of them are still in need of medical supervision or public health follow-up. And an estimated 35,000,000 Americans—a third of the population—are infected with the germs that cause TB. Some 2,500,000 of this huge group will develop TB in their lifetimes. If the present rate of development of disease from infection continues.

Early diagnosis and immediate treatment are essential in the control of TB. Education of the public and continued research are other vital weapons in this war. The Christmas Seal Sale supports the work of the 3,000 voluntary tuberculosis associations in this country and its possessions. Significantly, of the money raised each year in local campaigns, 94 per cent remains within the state.

The campaign begins November 15 and will continue through December. Do your part by buying seals.

PUBLICITY BUREAU TO OPEN INFORMATION OFFICE AT CALAIS NEXT SUMMER

The State of Maine will have a new Information Office to operate in a new summer to service auto and mobile traffic coming into the State through Washington and Aroostook Counties according to an announcement made by David Garceau, President of the Maine Publicity Bureau.

Garceau stated that approval of the establishment of a branch office of the Publicity Bureau at Calais, in cooperation with local promotional groups, was voted at a recent meeting of the Bureau's Board of Directors.

The tremendous increase in the flow of traffic through this point of entry over the past few years has indicated a need for a State of Maine Information Center here to service this vacation-travel business, according to Garceau.

The Maine Publicity Bureau presently operates information offices at Kittery, Portland, Fryeburg, Augusta, Bangor and New York City. The new Calais branch will be the seventh in the Bureau's information network.

SHORTER DAYS CALL FOR GREATER CAUTION ON HIGHWAY

"Early twilight calls for drivers to ease up on speed and use extra caution."

Our Maine Highway Safety Committee made this observation as it advised motorists to remember that dusk can be deadly.

"There's no doubt about it—many probable victims of traffic accidents are walking and riding on the streets—especially at night," continued the committee. "We're talking about the careless pedestrians and careless motorists and about the hours that are particularly dangerous from 4:30 P. M. to 8:00 P. M. That's when people are rushing home from work—tired, fretful, impatient and frequently inconsiderate."

The safety group stressed the fact that it is important for pedestrians and drivers to look out for each other, emphasizing that this could be made easier if pedestrians and motorists would help the other follow by wearing light colored clothing and by turning on car lights early.

"Darkness reduces visibility, and it is important that pedestrians be easily seen," added the committee. "It's a mighty good idea for night walkers to wear white or light colored clothing and to carry a light. This helps the motorist to spot the walker at a greater distance."

"Of course the idea of being seen also applies to the drivers. They should make it a point to turn on their headlights at the first hint of dusk. Parking lights won't do."

"Death stalks, walks and rides at night," concluded the committee. "Driving or walking, each of us must accept responsibility to avoid accidents. One of the best ways to help is by making it easier for the other fellow to see us."

VOICES ON VETERANS' DAY

Mon.-Wed.-Sat.

We seven sisters do not appreciate the evil day when wars will end because there will be lost an ardence and so men to wage war. It would seem to be either that or slavery under ruthless tyrants. So, it is well before we sound the trumpet, that we "hear the voices from the field." What would the voices say that will really matter? Voices to our own land might be heard, but who would care about them in lands around the world? Let us cling to the faith of the poet that somewhere "good will be the final seal of ill." And let us work harder to spread the gospel, "all men's good," working toward the time when there shall be not enough to seal all the hall-

Schools will be closed on Friday of this week for teachers to attend the Oxford County Teachers

Convention at Mexico. The sudden death of Leon Enman on Tuesday, Oct. 29, came as a shock to his many relatives and friends. He had suffered a heart attack three weeks before but was making a good recovery and hoped to be returning to his work this week.

The statistical information concerning his life appeared in last week's Citizen but it seems fitting that a word of tribute be written in memory of this friend and neighbor who was called to his eternal home at the very peak of his usefulness.

Leon's genial personality, his sense of humor and his love for people won for him a wide circle of friends in the different communities in which he lived and worked. His occupations were varied but wherever he worked his cheerful and faithful performance of his tasks made him a valued employee.

A Tribute

The sudden death of Leon Enman on Tuesday, Oct. 29, came as a shock to his many relatives and friends. He had suffered a heart attack three weeks before but was making a good recovery and hoped to be returning to his work this week.

The statistical information concerning his life appeared in last week's Citizen but it seems fitting that a word of tribute be written in memory of this friend and neighbor who was called to his eternal home at the very peak of his usefulness.

Leon's genial personality, his sense of humor and his love for people won for him a wide circle of friends in the different communities in which he lived and worked. His occupations were varied but wherever he worked his cheerful and faithful performance of his tasks made him a valued employee.

Leon loved the out-of-doors and his chief recreation was in the woods and along the streams. He and the Oxford County Teachers greatly enjoyed hunting and fish-

ing. His first thought was of his home and family and his beloved wife and children will ever cherish the memory of his devoted service to meet their needs and to add to their happiness.

The attractive log house built six years ago near his boyhood home in Newry constructed by his own hands stands as a monument to his memory.

The large attendance at the funeral service held at the Newry Church on Thursday afternoon was an eloquent expression of friendship.

Lakewood, N. J., Citizen: "It has been suggested that the reason there were fewer wrecks in the horse and buggy days was because the driver didn't depend wholly on his own intelligence."
